About the Property

New Listing! Located in the heart of town no bells and whistles no sound effects, this three-story Victorian will sell itself. It's just under 5000 ft.² of true living space over 6000 ft.² if you include below grade. It's as unique of a property as you will find...Over 2 acres of ground on the HAMMONTON LAKE...Unlike many of our properties, it's not turnkey, move in ready, but it is all framed out. It's a BLANK CANVAS just waiting to be PAINTED! I believe if the right buyer comes along and puts the right finishes on it, it has potential to be the NICEST home this town has EVER seen! In the event of a resale, it WILL set a new record for the highest priced sale. Come see Central today!
