About the Property

Come tour this spacious 2-story, 4-bed, 2.5-bath gem in one of Galloway's finest neighborhoods! Sold strictly AS-IS, this home just needs a little TLC — but with a formal living/dining room, family room, and an extra-large kitchen with an island, breakfast nook, and tons of cabinet space, it's already got great bones. The primary suite steals the show with a sitting room, three custom closets, and extra storage. Add in a screened rear porch, newer heater, and 2-car garage, and you've got a whole lot of potential at a great price. This one won't stick around — come see it for yourself! Bring an offer!!!!
